punk¹ (punk) n. 1. (slang) a worthless person, a young ruffian. 2. (slang) an inexperienced or insignificant young person. 3. a devotee of punk rock. **punk** adj. 1. (slang) worthless. 2. of punk rock or its devotees. **□punk rock**, a type of pop music involving outrage and shock effects in music, behavior, and dress.

THE RAMONES invented punk as a way to get to sleep in CBGB's. Then people took them seriously, they started making records and became hailed as the fathers of punk. Johnny Rotten travelled all the way from England to spit on them at The Ritz.

We're asking you to act like there's no tomorrow.

Camel discovers punk cut looks better than it tastes

BIELEFELD, West Germany (DPA) — A camel taking part in a circus stunt here yesterday took a fancy to the green spiked hairstyle of a passing man and took a bite of it.

While the youth got an unexpected and painful haircut, the camel got a nasty surprise, police said. It had evidently thought the hair was grass, but seconds later realized its mistake and spat it out.

punk n 1: a young inexperienced person 2: a petty hoodlum 3: adj: very poor, inferior

This is how 'punk' is defined in my Merriam-Webster Dictionary. Punk music has been with us since the dawn of Rock and Roll. For those who have seen the changes and additions to Rock music over the years and didn't like it, then, it's been a punk movement all along. It's been 30 years of music rebelling against any set standard that an artist felt needed to be changed or innovated.

Elvis was a punk. The Beatles were punks. The Stones were punks. David Bowie was a punk too. It took the advent of such artists as Lou Reed, The New York Dolls, the MC5, and The Stooges before somebody finally came up with the label — "Punk music".

Although, you may associate punk with loud thrashing guitars, screaming vocals, and spiked hair, there is one thing that is undeniable. It is music with guts, with artists unafraid to do and say and sing as they feel. It's a musical freedom showing no conformity. When you think about it, we've seen this before with such artists as Hendrix, Kiss, and Frank Zappa.

So — Perhaps Rock and Roll can simply be defined as "a continuing punk music movement that began in the early 50's".

THE RAMONES invented the ripped-at-the-knees, butt hanging out, barely held together blue jeans look, still in vogue among mall rats and weekend stock brokers.

The History of PUNK ROCK!
IN THREE PANELS OR LESS!

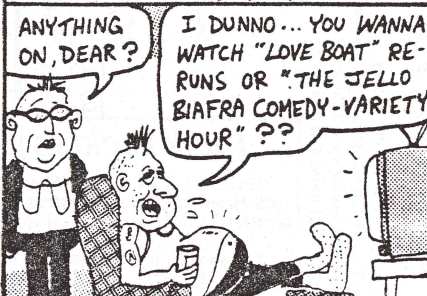

ONE FATEFUL DAY 17-YEAR-OLD JOHNNY ROTTEN SAID TO SID VICIOUS:

DOWN'n'OUT in LEAVENWORTH
(or Dial 73673-012) by *Shana Williams*

Two punks, a sandy-haired one and a black one, were definitely one of the only two or three over 18) outside some old theatre or auditorium in a neighbourhood I'd never been in before. And here are the corks crusting slow, just in awe of the punks, or so it seemed. And inside, slam dancing was friendly and girls were slaming too. How much fun it was to end up in a heap on the ground with cute teenage girls! And the ten-year-old singer of Mad Society like a castrato Johnny Rotten!

A more fierce dance-floor encounter was mine at a Circle Jerks gig at the infamous Starwood (its owners had Johnny Weed set up some dope fiend robbers to be rubbed out) and after toking out on hash and drinkin' whiskey and jumping into the dance circle when the Jerks began bashing I never remained on my feet for longer than three seconds. And after my fifth or sixth drink I went home and my friends had trashed the tables so the bouncers saw me.

Another time, the C-Jerks didn't show

up for a punk gig first at a teenage disco so the place got trashed as I watched the owners and their sons and daughters pleading with the kids - I got to watch teenage girls spinning each other round and falling into all the broken mirrors and disco balls on purpose.

But I guess the most memorable night was when the Germans had their combination reunion/Farewell gig and Barry Cratch, the *Soldiers of Love* singer, insisted that I would be the last American to perform. He would be the last German to perform and he'd O.D. on purpose a few nights later. He was so angry that night - inciting everyone to riot. If we really "meant it" - sure enough the dicks up in the balcony started throwing bottles and I got to age get the new wave character about my own age get the whole side of his head bloodied and walk off in a daze. Yeah man - it all sounds so twindry and vile - but that is the nostalgia of punk rock - no doubt about it. Anyone who tells you it's about making the world a better place missed out on all the fun.

Two young offenders charged with removing a body from a coffin at the Aurora Cemetery will have a bail hearing on Friday.

The incident occurred last Tuesday at the cemetery on Yonge St., when more than 20 headstones were knocked over, a granite slab and a casket were removed from a mausoleum and human skeletal remains from a body that had been interred five years ago were found on the ground, York Regional police said.

Both are charged with mischief causing more than \$1,000 damage and with causing an indignity to a human body.

The Ramones say: "We're the incarnation of Chuck Berry. He made a career of two chords, so did we. He collected 15-year-olds; we collect...parking tickets."

and with causing an injury to a human body.

BOSTON (UPI) — A college student broke his spine and was paralyzed from the neck down while slam dancing, illustrating the violent form of dancing "is a dangerous sport," doctors reported yesterday.

"This case highlights the serious nature of injuries that may be sustained," said Mrs. Raj Murali and Richard Rovit of St. Vincent's Hospital and Medical Centre in New York in a letter to the *New England*

Journal of Medicine.
Slam dancing is "a type of dancing in which the participants dash against each other at full speed. Performers also jump from the stage onto the audience below," they said.

The 21-year-old male student was slam dancing at a hotel when he "jumped off the stage and was followed closely by another dancer, who jumped on him and landed on his neck," they said.

PITTSBURGH (AP) — When CBS advertised for “bikers and punk rock types” to appear as extras in a TV movie starring Suzanne Pleshette, they had no shortage of applicants.

Hundreds of leather-garbed hopefuls, with applications in hand, filled a hallway at a suburban hotel on the weekend and soon spilled over into the main lobby, where they mingled with hotel patrons.

The movie, *Command In Hell*, is to be filmed in Pittsburgh.
